Dear Dan:

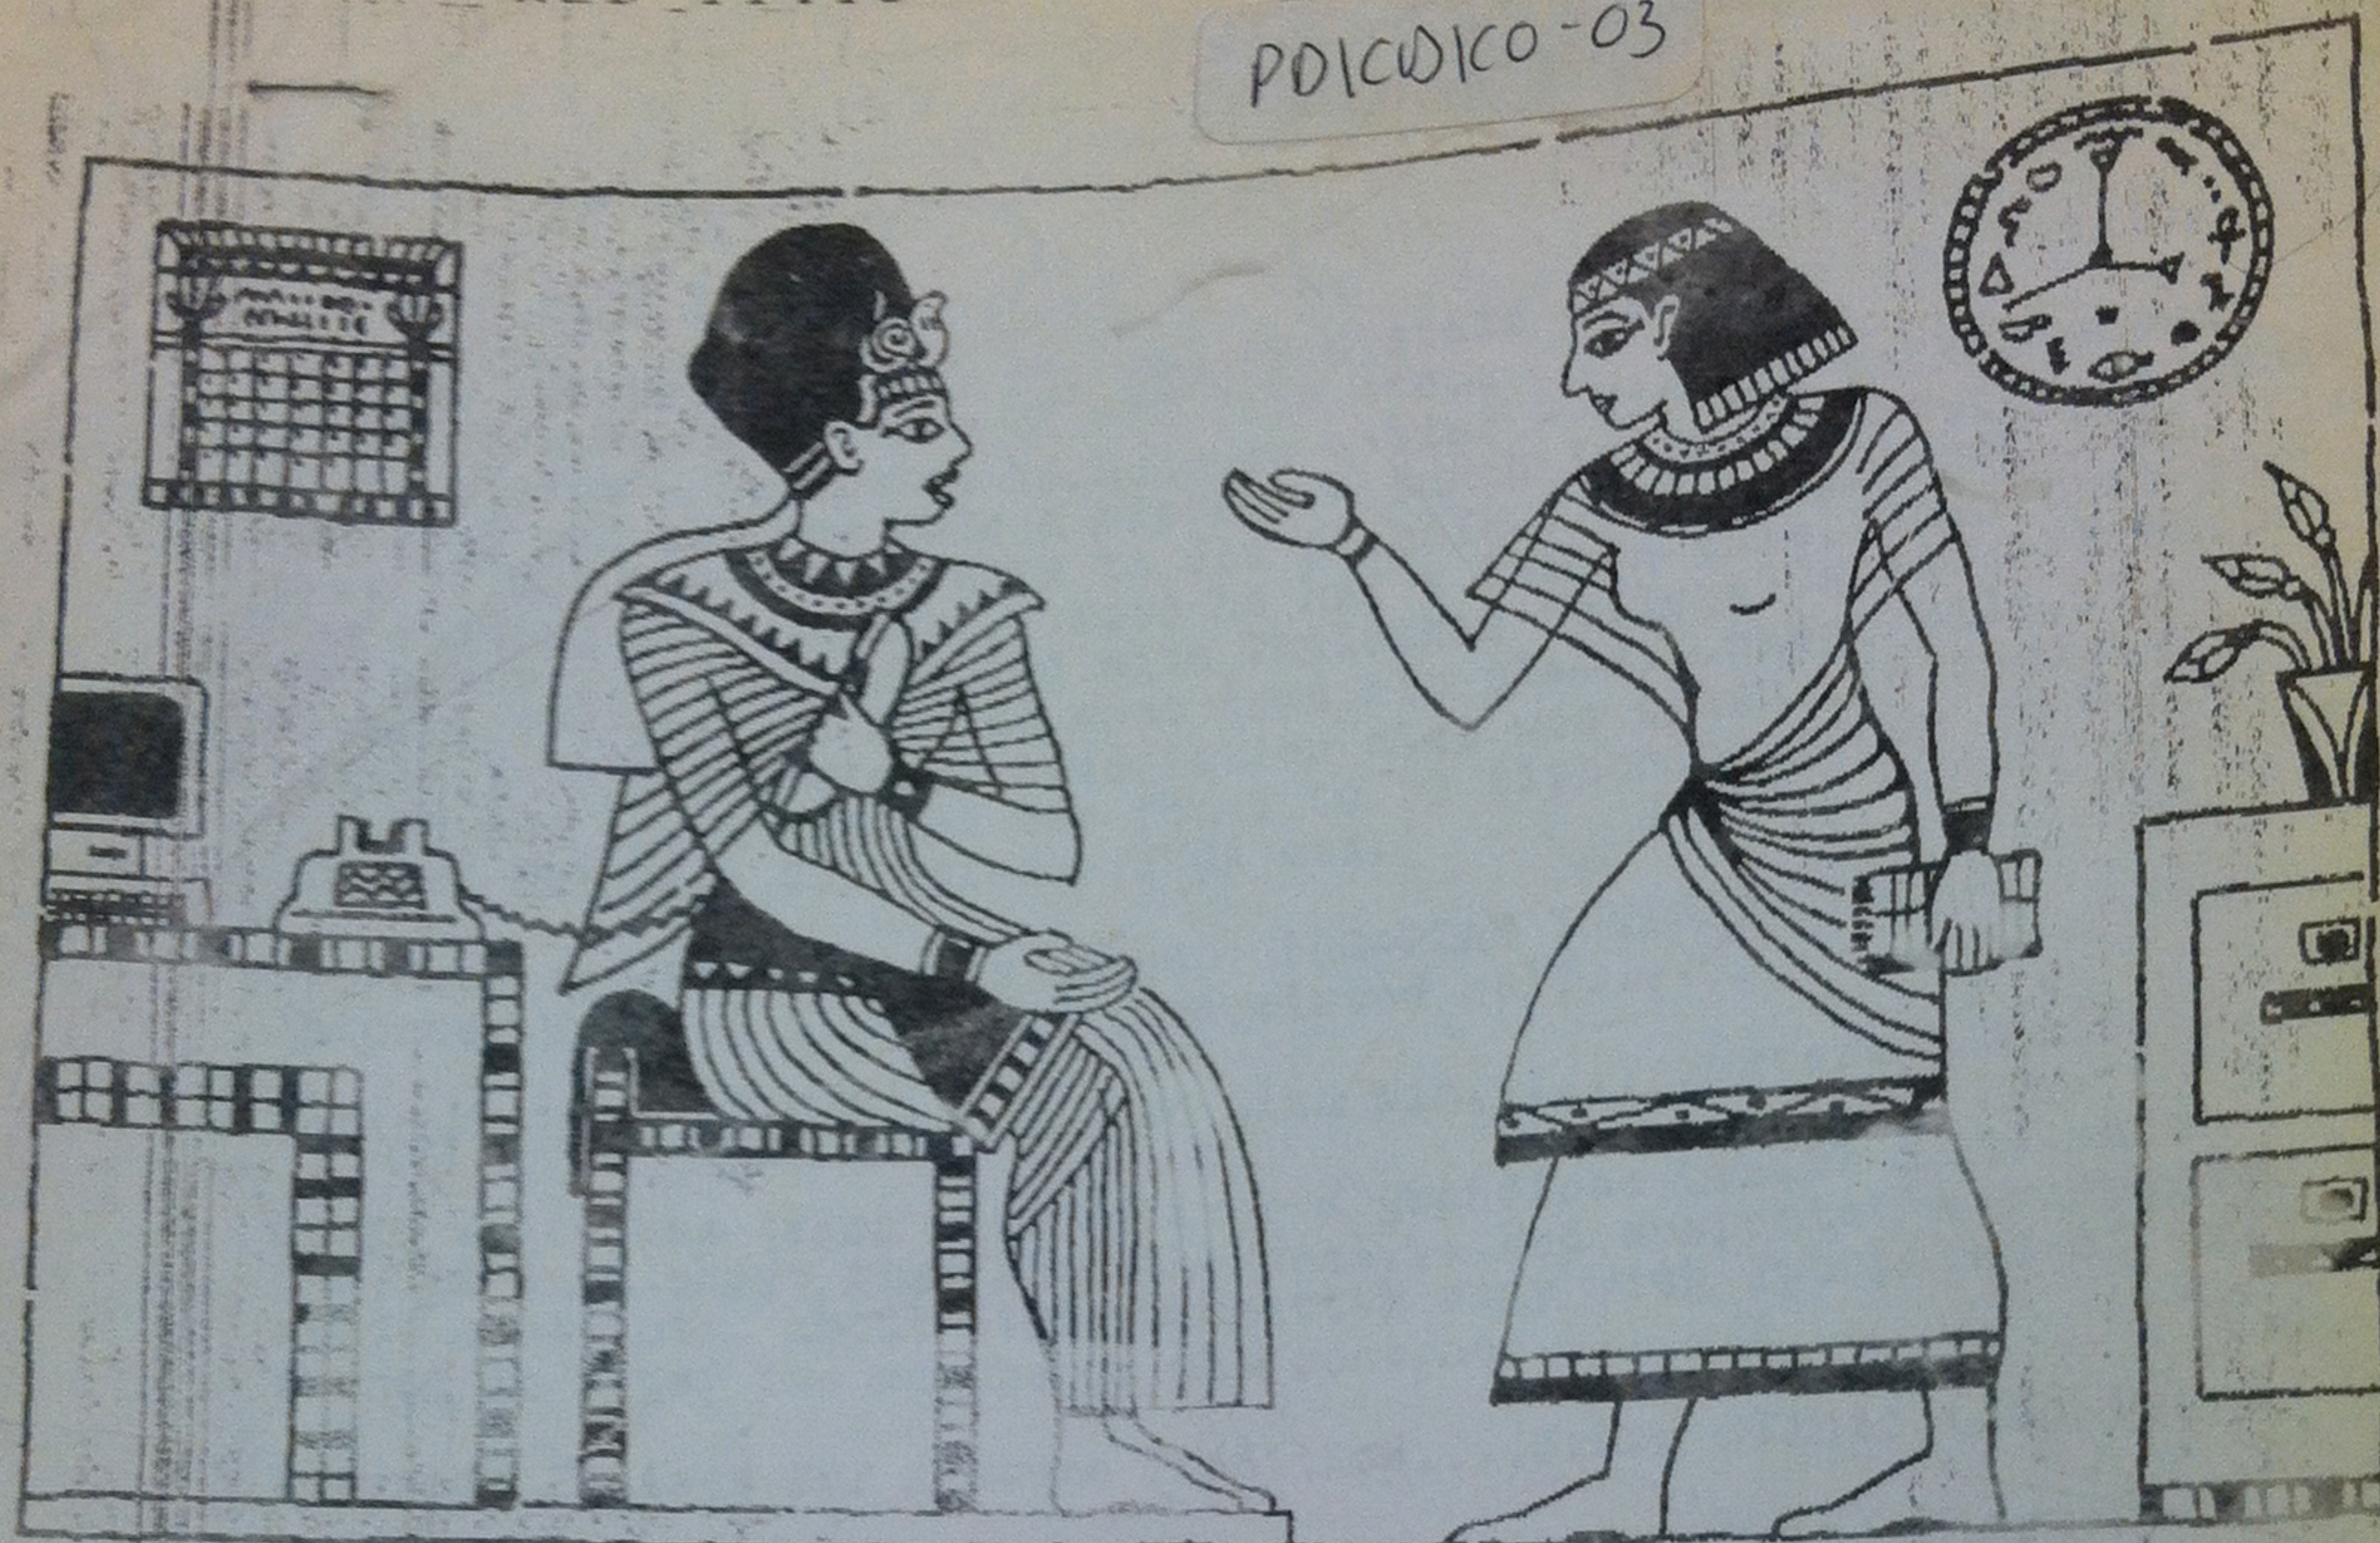

Shortly after speaking with you the other day, I came across this old copy of the California Journal, which contains an article I did that centered on Earl Brian + PHTPs. If you have questions, call. The stuff on the lawsuit isn't all that clear.

So let me get this straight, Miss Goldfarb—first the water turned to blood, then there were frogs, lice, flies and a murrain on all the cattle, followed by boils, hail, locusts, darkness over all the land and death of the firstborn. Now—why do I get the feeling you're about to ask for the day off?

President Ronald Reagan  
The White House  
Washington, D. C. 20500

Dear President Reagan:

I am a member and past Tribal Chairman of the Cabazon Band of Mission Indians. I, and several other tribal members are requesting that the Bureau of Indian Affairs intervene and investigate the operations of both the Cabazon Casino and the Indio Bingo Palace which are supposedly operated by the Tribe. The following are some of the reasons we are making this request.

We have never had an opportunity to voice our opinion, nor vote on agreements negotiated by the Cabazon business committee and non-Indian investors. We have not seen a financial statement in the past four or five years on the operations for the cigarette casino or most recently, the bingo palace. We have not had general tribal council meetings in the past three years (the Articles of Association provide for two semi-annual meetings). It's possible that all of the Articles have been changed by the business committee and the adviser, who is non-Indian and salaried, for their convenience in operating freely. Attempts have been made, verbally, to obtain this information, to no avail. We believe that the Articles of Association provide that All information on the business operations, financial agreements and any reserve monies in banks be given freely to all adult voting members. This has not been done.

We believe that the "white" salaried adviser to the select members of the business committee has advised them not to provide this information and has kept it within those circles. Otherwise, certain select members would not be employed by those enterprises. The adviser has all of his family members in key positions of the operation while the select members have menial positions.

The tribal secretary-treasurer, who is responsible for all recordings and the financial status of the Tribe, has been remiss in providing information to tribal members as well. We feel that the select members of the Tribe are either paid extra favors under the table for agreeing to what is happening or they are too scared to voice their opinions because of what happened to one of the members a few years ago. This person, and two others, was murdered a day before he was to meet with an attorney and provide that attorney with information on the casino operation.

Two of the businesses, cigarette and casino, have filed Chapter 11's. The manager for the two businesses is a son of the non-Indian adviser. He also manages the bingo operation!! Recently, tribal members have been assessed taxes by the IRS on income at \$270,000 each, supposedly received from the cigarette and casino businesses; we have not received any of this money.

The non-Indian adviser has now been indicted for soliciting the murder of five persons. The five people are not connected with the Tribe, however, the present Tribal Chairman has publicly made statements supporting the adviser. This tribal leader is either in agreement with what is going on or he doesn't give a damn about the tribal people he represents.

I could continue to write about more instances that would unfold into the beginning of a book, but I choose not to at this time.

In closing, we as Indians know that legislation which was passed some years ago, namely P.L. 93-638, gave tribes authorization to manage their own destiny, but, this bill also gives unscrupulous people the right to commit larceny at the expense of tribal members, young and old.

We ask that your appointed governmental representative act on this immediately so that the control and operation of Indian business affairs are restored to the tribal membership.

Sincerely,

Joseph R. (Mike) Benitez, Member  
Former Tribal Chairman  
Cabazon Band of Mission Indians

Dear Mr. Casolaro:

The San Francisco Chronicle ran another story on the big gun for IRAQ. This is one of the topics I mentioned to you during our telephone conversation. I don't know if there is any connection with your other interests. Call if you learn anything interesting.

Best regards,

John L. Emmett

Dear Dan,

Following up our telephone conversation about various people and various types of weapons, I am enclosing an article which appeared in the San Francisco Chronicle October 5, 1990, on this subject.

This apparently is what I explained to you as FAX (fuel air explosive).  
Keep in touch.
